## EDUCATION

**The Pennsylvania State University, University Park**

Expected Graduation: December 2026

*Bachelor of Science in Industrial Engineering*

**GPA: 3.3**

*Minor: Engineering Leadership Development*

## WORK EXPERIENCE

**Kew Gardens Animal Hospital, Queens, New York**

**May 2026 – Aug. 2026**

*Animal Hospital Assistant*

- Streamlined examination and surgery prep by organizing instruments and equipment in advance, reducing setup time between procedures.
- Maintained standardized sterilization and cleaning procedures to ensure consistent equipment readiness and compliance.
- Coordinated appointment scheduling and patient intake to balance daily caseload and reduce wait times.

## PROJECT EXPERIENCE

**Engineering Project Management Experience**

**Sept. 2025 – Dec. 2025**

*Project Lead and Team Member*

- Developed detailed project schedules using Microsoft Project, including task dependencies, milestones, and critical path analysis.
- Created Work Breakdown Structures, assigned resources, and established baseline schedules to track project progress.
- Conducted risk analysis, change control activities, and formal project closeout with lessons learned documentation.

**ACRP University Design Competition**

**Jan. 2025 – May 2025**

*Team Lead & System Designer*

- Designed an AI-driven route optimization system to reduce airport ground equipment emissions using MATLAB and SUMO simulation software.
- Collaborated with a 4-member team to develop data-driven routing algorithms and evaluate environmental impact across multiple traffic scenarios.
- Conducted stakeholder interviews to refine solution feasibility
- Integrated simulation results into performance metrics.

## LEADERSHIP & INVOLVEMENT

**Mentor & Tutor, FIRST Robotics Competition Team 2638**

**Jan. 2024 – May 2024**

- Provided assistance in mechanical, electrical, and systems-level robotics concepts.
- Assisted students in understanding design tradeoffs and competition requirements.

**Broadcast Lead, Penn State Intramural Sports**

**Jan. 2023 – Oct. 2023**

- Led live broadcast operations, coordinating technical setup, commentary, and production flow.
- Managed real-time problem solving and team communication during live events.

## SOFTWARE SKILLS

**MATLAB, Python, SQL, Microsoft Excel, SolidWorks, AutoCAD, Microsoft Project, Minitab, LINDO, Figma**
